## MULTIMEDIA VIDEO SLIDESHOWS

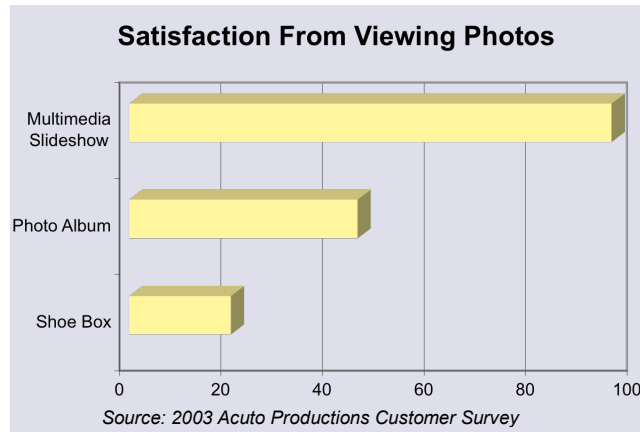

### Documenting History

What we cherish most in our life is our memories. There is no better way to preserve your memories than with a *Multimedia Video Slideshow* created by Acuto Productions.

In a customer survey (shown at right), 95% of the respondents found a multimedia slideshow to be the most satisfying way to view their pictures and memories. Customers preferred a slideshow over looking through shoe boxes of photos and photo albums.

We digitally produce *Multimedia Video Slideshows*, thus allowing you to safeguard the memories from discoloring and disintegrating. Future generations will enjoy the pristine digital images that you enjoy today.

A *Multimedia Video Slideshow* is perfect for every occasion: Graduating Seniors (high school & college), Wedding Anniversaries, History Presentations, Company Profiles, Holiday Gifts, and more. Let us get started on yours today!

### Creating a Multimedia Video Slideshow

A *Multimedia Video Slideshow* can be a collection of images, video, and sound. We accept photographs (up to 11x17 size), negatives, slides (35mm & 3x4), digital images, and transparencies. You also can include video and audio in your slideshow.

After selecting the image content, you choose the soundtrack (or even no soundtrack). We have a collection of copyright-free music you can choose from, or you may supply your own.

Finally, your *Multimedia Video Slideshow* can be created in several formats: DVD, VCD, VHS tape, Web Movie, E-mail Movie, and QuickTime™ Movie.

The process of creating a *Multimedia Video Slideshow* takes approximately one to two months.
